Most GWR tender locomotives changed their tenders many times during their lives, some as many as twenty times ! Considerable research has been done over the past year in order to identify the correct tender numberplate to include with your order. IT IS THEREFORE VITAL THAT YOU STATE THE TYPE OF TENDER YOUR MODEL HAS, eg: Churchward 3500g; Collett 4000g; Hawksworth 4000g, and the SPECIFIC PERIOD MODELLED within a couple of years or so . This could avoid getting the wrong numberplate ! Whilst it is impossible to design plates for every tender ever attached, a suitable plate can be included.
