<p>Whilst it is easy enough to list the early diesel Classes, once we get to the 1980s, when locos were being named every few days; when nameplates were being transferred from loco to loco, and sometimes to locos of different classes, it becomes more complicated ! The Railfreight era is even more confusing, so I hope my method of setting out the various sets helps you to order the version you require. Sets are listed in Class headings, and each set has a letter code to show which plates are included – many names will be available in more than one form depending on livery, and will require different plates in their set.</p> <p><b>NAMEPLATES are generally listed by their FIRST NUMBER</b></p> <p><b>Prefixed (N) = A pair of Nameplates only.</b> <b>Price : £14</b></p> <p><b>Prefixed (C)(N) = A pair of Nameplates &amp; a Pair of Crests</b> <b>Price : £20</b></p> <p><b>Prefixed (NW) = A Pair of Nameplates &amp; a Pair of Works Plates</b> <b>Price : £17</b></p> <p><b>Prefixed (C)(NW) = A Pair of Nameplates; pair of Crests &amp; pair of Works plates</b> <b>Price : £23</b></p> <p><b>Prefixed (RF) = Railfreight liveried locos. = A pair of Nameplates;a pair of Double Reversed Arrows,pr.of Depot Plaques &amp; pr.
